FOLKESTONE & DISTRICT MIND

MISSION STATEMENT

(Aims & Objectives)

Folkestone & District Mind exists to improve the quality of life of those experiencing mental distress in Shepway.

Mind does this by:

Providing practical and emotional support through the provision of open access user centred Community Services for Folkestone and the surrounding area.

Challenging isolation, stigma and discrimination.

A programme of services and activities specifically designed to promote and encourage Social Inclusion.

Seeking funding and developing a range of services focussed on wellbeing and recovery in the Resource Centre and in community settings.

Informing and supporting users of the service, family members, carers and members of the public to voice their concerns regarding mental health issues in the locality.

Seeking to convey the views, needs and aspirations of those who use our services to those responsible for the development of Statutory services and other service providers in this locality.

Working for the improvement and development of good quality voluntary and statutory sector services accessible and available at time of need through networking and representation.

Assisting in the promotion, support and maintenance of good mental health in the Shepway community.
